Don't Fear the Future - God has got your back!

Graduation is such an exciting time for so many people. It is a proud moment for parents as they see their kids graduating from high school. It is something they have worked so long to do. It is an exciting moment for students as they are ending a season of their life and starting a new one. One emotion that is felt by many at this time is fear. The future is ahead of the kids but the parents may fear what road they will take. The kids may fear the unknown of what lies ahead of them. Joshua also knew what it felt like to be afraid of the unknown. He was tasked with leading the Israelites to the promised land. God knew he might fear the unknown that was in his future, but he encouraged him by saying be strong and courageous and that He would be with him. It is the same promise He gives to us throughout the Bible that He is always with us. We should be encouraged to know that even though none of us know what our future holds God is with us.
